Name:

Date: ____

Directions: Determine the word defined or answer to each item below and place the answers in the boxes to the right. At the bottom, write the corresponding letter and number to reveal a secret message.

Subject: Construction Careers- Equipment Installation and Design

Itermoreakb 3 Def: Makes, installs, and repairs boilers, tanks, and other large vessels that store and heat liquids or gases under extreme pressures. 3 electric coantismssin installer 0 Def: Works for local power companies to erect transmission lines and systems for power to buildings and other structures. 5 Iteaecicinc 0 Def: Installs and maintains wiring systems and electrical system components. 1 Def: Installs, maintains, and repairs elevators, ecculators, moving sidewalks, and similar equipment. 7 CHVA holimeac 0 0 Def: Installs and repairs networks of cables and write the stains. 2 winsglittih 0 0 Def: Installs, maintains and replaces a variety of heavy machinery used in industries such as power generation, construction, manufacturing, and minitip. 2 minitics. 0 0 0 Def: Installs, maintains and repairs security and fire maintains and computer networks. 6 5 systems, cabling, and computer networks. 8 0 0 Def: Installs and repairs communication services. 8 0 0 0 Installs and repairs communication services. 6 5 5 5 syst													_				
and other large vessels that store and heat liquids or gases under extreme pressures. electric coantrismssin installer Def: Works for local power companies to erect transmission lines and systems for power to buildings and other structures. Theeaeicinc Def: Installs and maintains wiring systems and electrical system components. Iaerveto Intaslie Def: Installs, maintains, and repairs elevators, escalators, moving sidewalks, and similar equipment. CHVA hcinneac Def: Installs and repairs heating and air conditioning, ventilation, and refrigeration systems. enli rkreow Def: Installs and repairs networks of cables and writes that supply buildings with electrical power and communications services. wingliftih Def: Installs, maintains and replaces a variety of heavy machinery used in industries such as power generation, construction, manufacturing, and mining. nriecoetic tsesmy technician Def: Installs, inspects, and repairs security and fire alarm systems. Security and fire mains types minitabilier Def: Installs, inspects, and repairs security and fire alarm systems.	ilermoreakb																
liquids or gases under extreme pressures. electric oanrtismssin installer Def: Works for local power companies to erect transmission lines and systems or power to buildings and other structures. Ifteredicin Def: Installs and maintains wiring systems and 1 electrical system components. Iearvteo Inrtaslie Def: Installs, maintains, and repairs elevators, escalators, moving sidewalks, and similar equipment. CHVA hcimneac Def: Installs and repairs heating and air Conditioning, ventilation, and refrigeration systems. Entil tracew Def: Installs and repairs networks of cables and verse the supply buildings with electrical power and communications services. Winglirtin Def: Installs, maintains and replaces a variety of heavy machinery used in industries such as power generation, construction, manufacturing, and mining. Intercect tesemsy technician Def: Installs and repairs communication Security and fire malra tysessm installer Def: Installs, maintains and replares security and fire alarm systems. Security and fire malra tysessm installer Def: Installs, maintains and repairs security and fire alarm systems. There is no to success, you have to take the stairs.											3						
electric contrismssin installer 5 Def: Works for local power companies to erect transmission lines and systems for power to buildings and other structures. 5 Iteaeicinc 0 Def: Installs and maintains wiring systems and electrical system components. 1 Iaervteo Installs, maintains, and repairs elevators, escalators, moving sidewalks, and similar equipment. 7 CHVA heimneac 0 Def: Installs and repairs heating and air conditioning, ventilation, and refrigeration systems. 4 enil rkneow 0 Def: Installs, maintains and replaces a variety of heavy machinery used in industries such as power generation, construction, manufacturing, and mining. 2 minglirtih 0 0 Def: Installs, maintains and replaces a variety of heavy machinery used in industries such as power generation, construction, manufacturing, and mining. 6 mericet tesemsy technician 0 0 Def: Installs, maintains and replaces a communication systems. 8 relearner subjects, and repairs security and fire alarm systems. 8 mining. 1 0 mining. 1 0 mining. 1 0 mining. 1 0 power generation, con																	
Def: Works for local power companies to erect transmission lines and systems for power to buildings and other structures.
