UNIT: CTSO (FCCLA) Orientation

INTRODUCTION

Annotation:

FCCLA (Family, Career, and Community Leaders of America) is a co-curricular, career and technical student organization for young men and women in Family and Consumer Sciences education. FCCLA helps students become leaders and addresses important personal, family, work and societal issues. FCCLA is the performance group of Family and Consumer Sciences. I strongly encourage and expect all class members to become affiliated FCCLA members. Through information processing about the organization, students will understand the importance of joining this group.

Students with Disabilities:

For students with disabilities, the instructor should refer to the student's IEP to be sure that the accommodations specified are being provided. Instructors should also familiarize themselves with the provisions of Behavior Intervention Plans that may be part of a student's IEP. Frequent consultation with a student's special education instructor will be beneficial in providing appropriate differentiation.

LEARNING EXPERIENCES

Instructional planning: Include lessons, activities and other learning experiences in this section with a brief description of the activities to ensure student acquisition of the knowledge and skills addressed in the standards. Complete the sequence of instruction for each lesson/task in the unit.

Sequence of Instruction

1. Identify the Standards. Standards should be posted in the classroom for each lesson.
2. Review Essential Questions.
3. Identify and review the unit vocabulary.
4. Show one of the FCCLA promotional videos and distribute video questions. Discuss.
5. Go to the computer lab or bring in airport computer cart. Distribute Step 1 web quest questions. Students work individually or in pairs to complete the questions. Discuss as a class. (FS3, 5, 8)
6. Distribute information sheets or the FCCLA manuals. Discuss facts that were not included in previous web quest. (FS3, 8)
7. Students view old FCCLA scrapbooks and photos. Discuss projects listed on information sheets. Discuss STAR events related to course work (Focus on Children, Career Investigation, Chapter Service, Illustrated Talk, and Teach and Train). Refer to the STAR events manual located on the national website. (FS3, 5)
8. Direct students in an FCCLA scavenger hunt within the classroom. (FS3, 8)
9. Distribute "FCCLA Rocks the House" brick sheets to groups of students. Students use resources to find answers and participate in review game. Award prizes (optional) to group members that build their FCCLA house first. (FS8)
10. Schedule a day to induct FCCLA officers and new members. The FCCLA resource CD has an installation ceremony to follow. It is nice to have a reception following the ceremony.
11. Schedule a celebration party for affiliated members, complete with games and food.
12. Discuss the steps of the FCCLA planning process. (FS4)
13. Incorporate a National Program into the classroom. Examples of National Programs include but are not limited to Dynamic Leadership, Career Connection, FACTS, and Community Service. Ideas for carrying out these projects can be found on the national website. (FS3, 4, 5, 6, 8)

Notes & Reflections:

There are many activities and resources available in manuals, CDs, and DVDs available for purchase from API Inc.

The Scavenger Hunt will need to be adjusted to suit the instructor's classroom and available resources. Also update date and name specific questions.

Many performance activities in the IECE and other ECE courses are related to FCCLA and the purposes and mission of the organization. Throughout the course, any activity or project that involves children, families, and/or community can easily be connected to FCCLA.

Each teacher will find the best activities that work for her/him. The activities listed under Sequence of Instruction are not suggestions for an order in which to present them to the class. These are a variety of suggestions and not all activities may be used. Text readings, study guides, and supplemental lectures are not listed. It is recommended that every teacher use techniques and learning activities in each class that support multiple learning styles.
