Name:	Date:

Directions: Determine the word defined or answer to each item below and place the answers in the boxes to the right. At the bottom, write the corresponding letter and number to reveal a secret message.

Subject: Engineering Related Construction Careers

Def: Assesses construction of structures such as buildings, roads, and water systems to assure compliance with codes and regulations. Viroleyus Def: Measures directions and angles on the Earth's surface and researches legal records to determine property and boundary lines. amsirttoe Def: Provides cost analysis of projects based on engineering specifications. telcnareici Def: Installs and maintains wiring systems and electrical system components. ecdo icifiaof Def: A government official who issues permits for all and inspects buildings, plumbing, floodplain management, land use, signs, and demolition. irochttca Def: Plans and designs buildings, and participates in supervising the construction of a building. irochttca Def: Applies computer programs to make detailed technical drawings to engineering specifications that construction crows use to erect structures. teleralccl niel technician Def: Installs and repairs networks of electrical lines that supply communities with electrical power. nostrrteaoi technician Def: Works with architects, engineers, and preservationists to repair historic structures. aesscpofniciti writer Def: Describes in written documents the types of materials to be used in construction projects. "Coming 9	engineering sneroipct								
buildings, roads, and water systems to assure compliance with codes and regulations. Proveyus				4					
Def: Measures directions and angles on the Earth's surface and researches legal records to determine property and boundary lines. amsirttoe Def: Provides cost analysis of projects based on engineering specifications. telcnareici Def: Installs and maintains wiring systems and electrical system components. ecdo iclfiaof Def: A government official who issues permits for and inspects buildings, plumbing, floodplain management, land use, signs, and demolition. ircehttca Def: Plans and designs buildings, and participates in supervising the construction of a building. Prafedt Def: Applies computer programs to make detailed technical drawings to engineering specifications that construction crews use to erect structures. teieralccl niel technician Def: Installs and repairs networks of electrical lines that supply communities with electrical power. nostrrteaoi technician Def: Works with architects, engineers, and preservationists to repair historic structures. aesscpofniciti writer Def: Describes in written documents the types of materials to be used in construction projects.
